

**University of the Pacific Arthur A. Dugoni School of Dentistry
123rd Annual Alumni Meeting – 2022 Alumni Weekend
The Fairmont Hotel, San Francisco**

Jamie Collins, RDH-EA

Saturday, March 5, 2022

8:30 – 10:30 am – 2 units

Subject Area: Intraoral Camera & Teledentistry

Title:

“Using Intraoral Cameras and Teledentistry to Improve Case Acceptance and Health Outcomes”

Course Description:

Intraoral cameras are a vital piece of equipment for patient care and documentation as part of the patient experience. Intraoral camera use has been shown to increase case acceptance by allowing the patient to see what the provider sees, in turn creating value and urgency to follow through with treatment recommendations. Intraoral cameras play a vital role in teledentistry, and this course will provide an introduction and examples how to streamline patient care in any oral health program.

An in-depth discussion of the why, when, and how to use intraoral cameras to ensure competence and confidence as a proven tool to improve patient outcomes. Speaker will discuss tips and tricks for obtaining quality images.

Objectives:

- 1) Discuss why intraoral cameras are a vital tool in daily practice.
- 2) Identify the benefits of intraoral camera use as a supplement to patient care.
- 3) Understand the basics of teledentistry technology.
- 4) Discuss how teledentistry can streamline patient care and health.
- 5) Identify how intraoral imaging can improve patient motivation.
- 6) Obtain useful intraoral camera techniques and tips to ensure quality images.
