

University of the Pacific Arthur A. Dugoni School of Dentistry
123rd Annual Alumni Meeting – 2022 Alumni Weekend
The Fairmont Hotel, San Francisco

Brian B. Toorani '99, DDS

Friday, March 4, 2022

9:00 am – 12:00 pm – 3 units

Subject Area: PRF in General Dentistry

Title:

“Bone Grafting and Platelet Rich Fibrin (PRF) Use in Dentistry! Why? How? When?”

Course Description:

This course will simplify and show differences between PRP/PRF and its advantages and limitations. Armamentarium needed to make PRF properly using various systems including Vertical vs Horizontal centrifuges, tubes, and tube types will be covered. The fabrication of “Sticky Bone” using Allograft and Xenograft for surgical use will be shown and explained. The course will end with some great LEADERSHIP and Practice SUCCESS pearls.

Objectives:

- 1) PRP/PRF/PRGF explained and clarified.
- 2) Various PRF systems and their benefits.
- 3) Armamentarium needed to make PRF.
- 4) Proper PRF fabrication technique.
- 5) “Sticky Bone” fabrication technique.
- 6) Autograft, Allograft, Xenograft advantages and disadvantages.
- 7) LEADERSHIP and practice SUCCESS pearls.

Short Bio:

Dr. Brian Toorani is a 1999 graduate from the University Of The Pacific, School Of Dentistry. He has devoted most of his time to successfully integrating the latest techniques in dentistry and has mastered the use of his CAD/CAM CEREC machine and CBCT since 2010. As a full-time practicing dentist, he has been surgically placing and restoring dental implants since 2002. He is a true supporter of minimally invasive-dentistry and believes in recreating beautiful natural conservative restorations. He has been a local and national trainer for Patterson Dental, a lead educational faculty member at Cad-Ray Education, and a true supporter of Guided Implant Surgery. He has earned his Fellowship and Diplomate Status from the International Dental Implant Association. He also holds multiple hands on basic, intermediate and advanced surgical training courses at his office in Huntington Beach, Ca. His smiling nature, gentle touch, and dedication to excellence make him a true leader in the dental community. He is often noted for his passion, enthusiasm and high energy.
